POSITION DESCRIPTION

POSITION: Director of Design & Engineering
DEPARTMENT: Design & Engineering
LOCATION: Fresno, CA
REPORTS TO: Ralph Goldbeck
FLSA: Exempt
DATE: June 2019

Position Summary:

Kitchens To Go built by Carlin, a rapidly expanding international business, is seeking a Director of Design & Engineering to join our team. Kitchens To Go designs, sells and leases commercial kitchen facilities throughout the USA and, to date, 28 international locations.

KTG's client list includes businesses and organizations from Education to Hospitality, Corrections to Healthcare, and Military to Senior Living such as Starbucks, Yum Brands, United Airlines, Apple and all branches of the Armed Forces.

This is an exciting opportunity to manage mobile, modular and containerized commercial kitchen projects as a solution for our clients.

Responsibilities:

Oversee and manage the design & engineering team and all activities pertaining to the design, development and production of mobile, modular and containerized commercial kitchens, specialty vehicles and related products which will meet the specific or general needs and requirements KTG projects.

Planning and management of resources: Work with the Sales Team to forecast resource requirements to support the design, development and production of KTG projects.

Design: Oversee the design of all KTG projects to ensure a consistent level of cost-effective performance and quality.

Specifications: Oversee the development of material and equipment specifications to meet project requirements. Specification to be developed in CSI MasterSpec format if required.

Code Approvals: Oversee the code compliance and approval process by all governing agencies. Work with project teams and agencies to secure approval for programs. Monitor, maintain and secure all agency approvals.

Job Costing: Provide assistance to estimating department to support job costing.

Document Production: Define, schedule and monitor required personnel and hardware resources required to manage the creation of design and construction documents for KTG in AutoCad and Revit.

Consultants: Manage in house or outside consultants as required to provide accurate engineering to support KTG projects.

Unit Production: Provide support to Operations Team to support plant production and field installation of KTG programs.

Post Project: Manage the creation of as-built and LEED documentation (if required) on all KTG programs.

Other:

- Research new methods and materials to enhance KTG programs.
- Interface with clients and project teams to develop new products and product lines.
- Manage the expanded use of LEED and sustainable material, equipment and features of KTG products
- Travel as required to support programs. Approximately 6 to 8 trips per year.

Other duties as assigned.

Minimum Experience Required:

5 years as a Project Engineer or Architect and 4 years in a management position. Experience level determines classification. Experience should be in commercial construction or other equivalent industries. Foodservice experience is a positive.

Minimum Education Required:

Bachelor's Degree

SPECIAL SKILLS REQUIRED:

Must be proficient in AutoCad and knowledge of Revit. Must be able to work within the constraints of a small design & engineering department. Be capable of assuming responsibility for several projects and/or tasks at the same time. Independently performs most assignments.

Physical Demands:

Capable of lifting up to 35 pounds; have good physical agility (job will require walking up and down stairs; climbing over, under and into units during inspections) Must be able to sit for long periods of time at computer terminal.

Compensation:

- Pay is based on experience.
- Health benefits the first of the month following sixty (60) days of continuous employment.
- 401K option is available after sixty (60) days of continuous employment.

Changes: This job description will be updated if duties and responsibilities change significantly. Job functions are subject to modification based on business necessity.

ADA/FEHA: The Company will make reasonable accommodations in compliance with the Americans with Disabilities Act of 1990 and California's Fair Employment and Housing Act.

EEO: The Company is an equal employment opportunity employer.
