

Director of Design, Architecture and Engineering

About the Company

Kitchens To Go built by Carlin (KTG) is an exciting international company that designs and builds mobile, modular and containerized commercial foodservice solutions for the foodservice marketplace. Our design and engineering is currently located in our Fresno, CA office with production provided by regional facilities throughout the U.S. Our corporate office is in Naperville, IL. We have Marketing, Sales and Operations personnel located throughout the country. Major clients include colleges and universities, national and regional healthcare facilities, foodservice providers such as Aramark, Compass and Sodexo, hospitality such as Starbucks and Yum Brands, business and industry such as Apple and Facebook and all branches of the military. www.kitchenstogo.com

About the Position

KTG has an immediate opening for a Director of Design Architecture & Engineering. This senior management person will be located in either our Fresno, CA or Naperville, IL office. Ideal candidates will have a minimum of 10+ years professional experience in architecture or engineering with project management responsibilities. 5+ years of managerial experience is desired. The position will include the oversight and management of our internal engineering department as well as consultants such as architects, engineers, code experts and foodservice experts. Working effectively with our professional Sales and Estimating team and innovative Operations group requires strong interpersonal skills and excellent organizational skills. A fast paced, creative environment with comprehensive benefits and compensation program. To apply for this position send a cover email and resume to: fred.stowell@kitchenstogo.com and go to <https://www.cindexinc.com/c/5A83CD> to take a short survey.
