## Applications

From planned renovations to unplanned situations, foodservice facilities are often tasked with efficiently producing high volumes of food with no loss in quality and without operational interruption.

Institutions that serve food daily must be equipped to continue operating at the same level of quality and service throughout the life of a construction project. Whether a project takes 1 month or 48 months, operators require interim foodservice facilities that are both building and health code compliant. Kitchens To Go also provides facilities following natural disasters and unplanned situations such as a flood or fire.

**Kitchens To Go's licensed architectural and engineering team partners with you to reduce construction fatigue.**

Whether your institution or business serves 100's or 1000's of people per day, Kitchens To Go provides state-of-the-art mobile, modular and containerized commercial kitchens to ensure – **We Keep You Cooking!**

MOBILE | MODULAR | CONTAINERIZED

## Foodservice Solutions

### MOBILE KITCHENS

Kitchens To Go mobile kitchens are well respected in the industry. Our units offer a wide array of capacities, features and equipment and may be self-contained with on-board power generator, gas and water supply.

### CONTAINERIZED KITCHENS

High cube 40' x 8' shipping units are built out to create commercial kitchens which can be connected to create complexes. These units can be shipped across the world and operate in extreme environments while maintaining comfortable and efficient work spaces.

The PAC® Kitchen, with hydraulic lifting legs and drop-down side wall, is ideal for special events and disaster situations. This kitchen can be integrated into free span structures, placed and operational quickly.

### MODULAR KITCHENS AND COMPLEXES

Kitchens To Go's modular kitchens have served the largest and finest hospitals, universities, military bases, service academies, country clubs, correctional facilities and restaurants. Whether during planned renovations or unplanned disasters, we have a suite of kitchen facilities to meet your needs.

Our modular kitchen concept offers functional, efficient, free-span cooking, preparation and storage areas. KTG modular kitchens provide integrated cold and frozen storage, ware washing, dining, restroom and office facilities that provide a one-stop solution to satisfy your project requirements and keep you cooking.

When your permanent kitchen requires expansion, our Bolt-On® concept provides a quick addition to your existing kitchen.

## Key Benefits

### YOUR TURNKEY SOURCE

Kitchens To Go has formed a network of strategic partnerships that allows us to provide a wide range of foodservice related facilities and ancillary services. Whether you're feeding thousands per day in the Middle East or steaming cappuccinos on the Chicago Lakefront, our kitchens perform so you can. Quality workmanship and code-compliant materials guarantee our kitchen will handle the toughest applications and environments – this week, this year and for years to come.
