

Bolt-On Kitchen®

KITCHENS TO GO®
by mobile modular

We Keep You Cooking!™

Factory-Built, Code-Compliant Commercial Kitchens

*Attach to an existing building
for reduced time and effort
of conventional construction.*

BOLT ON
KITCHEN®

Kitchens To Go® works closely with your team to jointly design a high-quality commercial kitchen solution that arrives on site and ready for installation.

Features

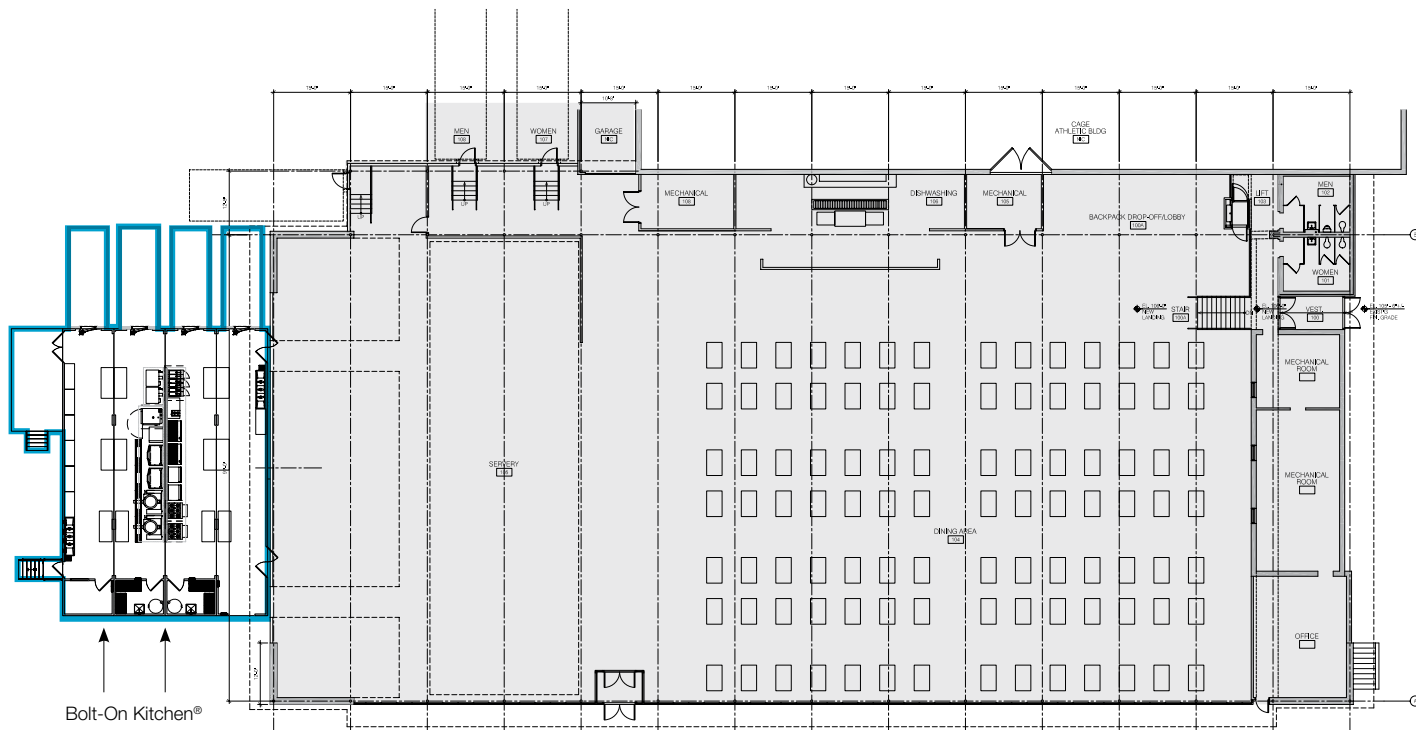

- Quicker to Market – 40% faster than site built construction
- Minimal disruption of daily operations
- Built in a quality controlled environment with 'green' initiatives
- Pre-approved, code-compliant buildings
- Site work and factory work done simultaneously
- Scalable to meet capacity requirements
- Configured for future expansion as need arises
- Equipped with a customized cook line, exhaust and make-up air system
- Custom finished interior/exterior to match existing building aesthetics
- Comparable in cost to site built construction*

**Conventional construction cost will vary based on materials, labor and location.*
