We Keep You Cooking!™

DRIVE INCREASED EFFICIENCY WITHOUT DISRUPTION!

Food service providers requiring flexible facilities to continue or expand operations trust Kitchens To Go to guide complex projects. From cafeteria renovations to dining facility expansions to pop-up grab-n-go stations to centralized kitchens to support mobile café programs, our team works closely with each food service client to design a customized solution complete with state-of-the-art equipment, functionality and design to meet the need.

solutions and view case studies.

FLEXIBLE FOODSERVICE FACILITIES

Balanced nutrition throughout the day contributes to student success in and out of the classroom. Research shows children are getting their healthiest meals at school and studies have demonstrated that school meal programs play an important role in supporting obesity prevention, overall student health and academic achievement by improving children's diets and combatting hunger.

The evolution of school foodservice has forced the design of kitchens and dining spaces to evolve too. Meeting students where they are, daypart expansion, and more prominent role for grab and go requires multiple distribution points on campus, mini-commissary models, reconfiguration of existing space to meet new realities, and updated storage and shelving including cold storage. The pandemic brought about the addition of curbside pickup to bring the food to the students.

AVAILABLE FOR LEASE OR PURCHASE

There are a variety of options for mobile, modular, and containerized kitchens designed specifically for K-12 schools. In California, kitchens are designed to meet DSA, HCD, Health Department and Building Code standards and provide a high-quality alternative to traditional stick built construction. As programs transition, design will continue to do so too and as you evaluate your existing program and perhaps consider updates, Kitchens To Go can assist you to remain operational.

During times of planned renovations, expansions, or unplanned situations, interim foodservice facilities from Kitchens To Go® keep you cooking.

**THE LEADER IN MOBILE, MODULAR, & CONTAINERIZED
FOODSERVICE FACILITY SOLUTIONS.**
