

BANNER THUNDERBIRD

Interim Kitchen Facility

KITCHENS TO GO[®]
by mobile modular

We Keep You Cooking!™

PROJECT INFORMATION

Banner Thunderbird Medical Center, is a nonprofit, acute care hospital in Glendale, Arizona, serving the Northwest Valley. Within the nine-modular complex, Kitchens To Go provided two cooking modules with extensive cook lines, a preparation module, two serving modules, a dish-washing module, and three cart employee lock/restroom area.

Additionally, two walk-in coolers and three walk-in freezers were attached to the complex. This modular complex allowed continuous foodservice to the Medical Center during the one-year renovation.

CLIENT

Banner Thunderbird Medical Center, a non-profit hospital, is a 513 bed acute-care hospital.

THE NEED

To provide uninterrupted foodservice to patients, visitors, and staff during a year long renovation. The project included construction of a new 220 bed patient tower, a new main entrance, emergency department, cafeteria and fully remodeled kitchen.

THE SOLUTION

An innovative nine unit modular complex with five cold storage units.
