

# ORLEANS PARISH SHERIFF'S OFFICE (OPSO)

Portable Kitchen Solution After Katrina

**KITCHENS TO GO**<sup>®</sup>  
by mobile modular

We Keep You Cooking!™

## PROJECT INFORMATION

Kitchens To Go brought in a kitchen complex consisting of Cook, Wash and Prep modules for the kitchen area. The designed layout with open space among the modules allowed for visual communication and supervision. In addition, the complex contained a walk-in freezer, walk-in cooler, storage, loading dock, and an in-house laundry facility.

## QUICK FACTS

- The project was funded by FEMA.
- This interim facility needed to remain portable as the contract required KTG to remove the kitchen within 72 hours of a potential hurricane landfall.

## CLIENT

Orleans Parish Sheriff's Office

## THE NEED

After Hurricane Katrina, 1000+ inmates were displaced and the Orleans Parish Sheriff's Office needed an interim kitchen to be used during the construction of a permanent replacement facility.

## THE SOLUTION

Kitchens to Go used modular units to create cook, wash, and prep areas supported by an open layout for visual communication.
